

Scrum Touch Collaborative Seating

Features

The Scrum analogy compares high-performing, cross-functional teams to the scrum formation used by rugby teams. A daily scrum is a short meeting held each day where members work closely together to review progress, support and empower one another, and ultimately push forward towards a common goal.

Scrum Touch provides a place to touch down for a quick meeting in a space that promotes focus and concentration. Touch includes an integrated table, with the provision to incorporate a monitor mount plus integrated power supply.

Specifications

- Light-weight MDF frame. Sits on adjustable-height glides.
- High-quality materials and premium upholstery for long-lasting durability.
- Units nest for economical shipping.
