

Features

Humanscale's next generation monitor arm line instantly personalizes any workspace for improved comfort, health and productivity. Designed for unprecedented adaptability in the agile workspace, our monitor arms focus on sustainability and the use of technology.

The M2.1 monitor arm, showcases a clean, sleek and organised aesthetic, paired with secure, robust and simplified installation. The rubberised cable management makes it simple to run cords through a modular system. The patented weight compensating spring technology enables smooth and uniform height adjustment and the built-in counterbalance indicator provides the ability to counterbalance the monitor weight before monitor installation.
