Pod

PET Felt Privacy Chair

Designer
Benjamin Hubert

The Pod Privacy Chair is perfect for breakout areas in offices or public spaces such as hotel lobbies. The Pod Chair creates the sensation of privacy and comfort within large or crowded spaces. It is basically a room within a room, without the constraints of a room. The PET felt pod chair is lightweight and easy to move around.

The Pod Privacy Chair is a true eye-catcher. This piece of furniture is also highly customizable. There are bespoke options in shell, cushion upholstery and the wooden frame.
