

Herman Miller Verus Chair

Features

Everyone in your office deserves ergonomic support and spinal alignment. With built-in sacral reinforcement and options for adjustable lumbar support, Verus strengthens employee wellness through engineered design that's affordable for all.

Verus strengthens the body while in a seated posture by supporting the sacrum without sacrificing comfort. Herman Miller's patented PostureFit® sacral support is standard across the Verus family, keeping the spine properly aligned. Within the chair's contoured seat pad, a harmonious blend of injection molding and foam provide a seamless, comfortable experience across body types of all shapes and sizes for both short- and long-term sitting. Its appealing price point makes Verus an attainable option for many.
